## Company profile

Gangzhou Zekai Plastic Co.,Ltd was founded in 2010, Which is located in the east district of Gangzhou Hejian Economic Development Zone, Hebei Province. Following the Beijing -Taiwan Expressway, Beijing -Kunming Expressway, Beijing -Hong Kong -Macao Expressway, adjacent to Tianjin Port, Huanghua Port, Land Road Water Road Transport, it provides easy access from all directions. Close to Capital Airport, Tianjin Airport, Gangzhou High -speed Railway Station, the transportation is convenient. Our company integrates R & D, production and sales, there is an experienced R & D team and a technical excellent production elite team, which have been fully recognized and affirmed by customers in practical applications. Our company covers more than 20000m<sup>2</sup> and 5000 m<sup>2</sup> is taken by workshops and offices. We have more than 80 staffs, including more than 20 experienced technical engineers.

Our company specializes in the production of PE thermal shrinkage film, all kinds of beer beverage mineral water thermal shrinkage film, food packaging film, pharmaceutical packaging film, tobacco special shrinkage film (specific perforating film), stretch winding film, grass film, low pressure film.

National Executive Standard: GB/T 13519-2016.

Our quality is ensured and trusted by customers domestic and abroad.

## Product Display

PE heat shrink film

Environmental protection non-toxic, support customized

## Product Advantages

### High Transparency

New material production, the product is beautiful and high-grade after packaging.

### High Shrinkage Rate

Packed tightly  
Not easy to loosen

### Super Waterproof

It has good effects, such as rainproof and dustproof.

### Good Stretchability

Strong toughness and extensibility make the product shrink and firm, and not easy to break.

## Wide Range Of Application

Suitable for beer, beverage, mineral water, tobacco packaging, cartons, food, drugs, etc.

## Product Display

PE stretch film

Films of different specifications can be customized according to requirements

## Product Advantages

### High Toughness

It is full of toughness and not easy to puncture during packaging.

### High Tensile Strength

The same number of meters and more packages greatly reduces the cost.

### Strong Self-adhesive

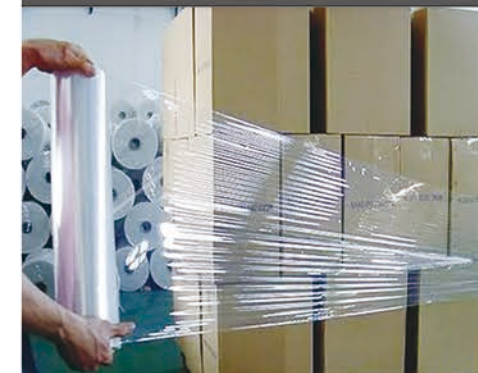

The winding is tight, not easy to fall off, and it is convenient to pack.

## Wide Range Of Application

### Warehouse packaging

### Logistics packaging

### Dustproof of electrical apparatus

### Building materials packaging

### Home dust prevention

### Machine dust prevention

Product Display

Silage warp film

Low Temperature Resistance

It will not freeze or brittle in cold environments.

HDPE Film

It is mainly used for medical supplies and food packaging.  
Features: good rigidity and level up degree and anti-puncture ability.

Product Advantages

Good Sealing

Impermeable to water and oxygen, forming an anaerobic environment with the outside world.

High Toughness And Puncture Resistance

The pasture is not damaged in the silage process
